

We praise God for the accomplishments of the past. We have so much to be thankful for. God truly has blessed West Angeles. We have thousands of people joining hands together in unity to serve God and humanity. Every individual member of West Angeles is important and significant! I thank God for the people and staff of West Angeles Church.

We must not spend too much time looking back. We must look ahead toward future challenges and opportunities to serve. God will not be pleased if we become satisfied with what we are and what we have done. The past is merely our launching pad into the future. I am excited about our future. I see West Angeles in the future and it looks much better than it does right now. Thanks for being a part of the future of West Angeles.

Yours in Christ,

Bishop Charles E. Blake
